

AG26 for Trailer Tracking

Drive Efficiency with
Full Fleet Visibility

Samsara offers an advanced IoT fleet management solution that combines internet-connected sensors with cloud-based software to help fleets of all sizes improve operational efficiency, prevent theft, and increase utilization, across both vehicles and equipment. By bringing all fleet assets into view, Samsara gives fleet managers the tools to make data-driven decisions that impact their bottom line.

— 01

ACHIEVE COMPLETE VISIBILITY

Bring your trailer operations into focus alongside your truck and driver data, all in one easy to use platform.

— 02

STREAMLINE YOUR OPERATIONS

Simplify dispatch decisions and easily get lost or dormant assets back into circulation.

— 03

REDUCE LOSS

Gain additional visibility into load temperature, humidity, door, and cargo activity to avoid load loss or theft. Get real-time alerts for trailer theft or misuse.

— 04

RETURN ON YOUR INVESTMENT

Keep your trailers moving by scheduling preventative maintenance, tracking utilization, and reducing detention time.

Part of a unified platform for fleet efficiency, safety, and sustainability.

How it Works

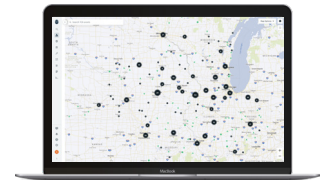

Samsara's AG26 for powered assets is ruggedized and weatherproofed, relaying real-time GPS data via the cloud while withstanding the toughest environmental conditions. Trailer trip data powers dispatch workflows, maintenance scheduling, and robust reporting on utilization, dormancy and detention, ensuring fleet managers get the maximum return on their trailer investment.

AG26 HIGHLIGHTS

- ▶ Real-time, to-the-second cloud-based GPS reporting for trailers
- ▶ Powered by standard 7-way port connection, compatible with trailers of all types
- ▶ Long-lasting, rechargeable battery
- ▶ Easy to install, weatherproof, and water-resistant (IP69K rating)
- ▶ Connects to full suite of wireless Samsara sensors including: Environmental, Door, and Cargo monitors
- ▶ Continuous 4G LTE cellular connectivity, with 3G fallback where LTE coverage is unavailable

PLATFORM HIGHLIGHTS

- ▶ Integrated dispatch workflow incorporates trailers into route planning and assignment
- ▶ Samsara's Driver App allows dispatch to share trailer assignment to drivers directly
- ▶ Real-time geofence alerts support inventory management, and rapid theft detection
- ▶ Detention reporting identifies opportunities for efficiency and billing gaps
- ▶ Live Link sharing makes it easy to communicate to-the-second ETAs with customers
- ▶ Utilization and Dormancy reports give fleet managers the tools to rightsize their fleets with confidence

TRUSTED BY FLEETS OF ALL SIZES
